It were better that our public men learned something about European pol-Ities if we are to play an active part in the affairs of the globe. According to the Evening Standard's Vienna correspondent, M. Nelldoff, the Russian Ambassador at Constantinopie, had an audience with the Sultan on Christmas Pay, at which none of the palace officials was allowed to be present. A secret convention was then proposed. A few days afterward Arif Pasha, one of the Sultan's aides-de-camps, accompanied by a dragoman from the Russian Embassy, started for St. Petersburg, where the negotiations were concluded. The news leaked out about the time Arif Pasha left Constantinopie and was published in several of the city papers, which were promptly suppressed by the authorities.

Its Loss Since the War for Cuban Indopendence Begun Amounts to Over \$33,000,000 - Recognition Would Remedy All.

By Julius Chambers.

Washington, Jan. 25 .- Official dispatches from Spain announcing insurgent reverses in Cuba may be expected until the 15th of February. The occasion of this renewed fighting "by cable," on the part of Spain, may be accounted for by the fact that the Bank of France has declined to say whether or not it will advance Spain another loan until that date. Until that time, too, it is doubtful if anything of a character derogatory to the Spanish army will be allowed to pass the rigid press censorship established in Cuba.

Already Spain has announced her intention of placing a special war tax on the overburdened shoulders of the planters, and from information obtained at the Cuban legation in this city, there will be a very small amount collected, as the people have been unable to meet the last assessment.

AMERICAN TRADE SUFFERING, An examination of the statistics of trade between the United States and Cuba will show that from a commercial standpoint alone there is ample reason why this Gov ernment should interpose to terminate the war now desolating that Island.
